## SUMMARY

Experienced Full Stack Software Developer with a strong background in JavaScript, .NET Framework, and ReactJS. I have successfully delivered high-quality software solutions and optimized system performance resulting in notable achievements, such as a 30% reduction in response time and receiving an Innovation Award. I am an effective problem solver, collaborate well in cross-functional teams, and thrive in fast-paced environments. With a Bachelor's degree in Computer Science and a passion for innovation, I am excited to contribute to a company's mission and be part of its sustained growth and creative work.

## STRENGTHS

### Problem Solving

Strong problem-solving skills demonstrated through successfully resolving complex technical issues resulting in improved system performance.

### Collaboration

Effective team player with excellent collaboration skills, contributing to successful cross-functional projects and achieving desired outcomes.

### Adaptability

Highly adaptable in fast-paced environments, quickly learning new technologies and methodologies to deliver high-quality software solutions.

## EXPERIENCE

2022 - Present

London, UK

### Full Stack Software Developer

#### Tech Solutions Ltd

Developed progressive web applications and mobile applications using ReactJS, Redux, and Thunk. Collaborated with agile teams to deliver high-quality software solutions.

- Implemented user stories and followed ATDD, TDD, and Continuous Integration to ensure high-quality code.
- Utilized Git for version control and GitFlow for streamlined collaboration.
- Contributed to the development of RESTful web services using .NET Core and created SOAP web services using .NET WCF.
- Optimized system performance by implementing SQL stored procedures and improving database queries.
- Worked with HTML, CSS, and JavaScript to create responsive web interfaces.

## EXPERIENCE

2017 - 2022

London, UK

### Software Engineer

#### Innovative Tech Solutions

Worked on web application development projects using .NET Framework, ASP.NET MVC, and Razor. Collaborated with cross-functional teams to deliver innovative software solutions.

- Developed user controls and ASPX pages to enhance website functionality.
- Utilized SQL Server to create and optimize database structures.
- Implemented JavaScript and jQuery for interactive web features.
- Collaborated with designers to implement responsive web designs.
- Participated in code reviews to ensure code quality and adherence to coding standards.

2015 - 2017

London, UK

### Junior Software Developer

#### Tech Innovators Inc

Assisted senior developers in the creation and maintenance of web applications using C#.NET and SQL Server. Gained experience in agile development methodologies.

- Assisted in the development of web forms and user controls using C#.NET.
- Worked on SQL Server database queries and stored procedures.
- Collaborated with team members to troubleshoot and debug software issues.
- Participated in sprint planning and daily stand-up meetings.
- Contributed to the implementation of RESTful APIs and integration of third-party libraries.
